ZENVORA AUTOMATIVE

1. Organisation Overview:

❖ Name: Zenvora Automotive

❖ Provide a brief history of the organisation.

Zenvora Automotive it is a fictional South African automotive company that was established in 2023. The company specialises in selling new and preowned vehicles, vehicle servicing, genuine spare parts and automotive accessories.

Zenvora Automotive is committed to provide a high-quality vehicle at competitive price and exceptional customer service. The company also aims in making the buying and maintaining a vehicle easier through a modern user-friendly online platform.

❖ Mission and vision statements.

The mission is to provide reliable vehicle and exceptional automotive services while delivering an outstanding customer experience through innovative, quality and integrity. The vision is to become the south African most used trusted and innovative automotive company and offering customers a seamless vehicle purchasing and servicing experiences both online and in store.

❖ Target audience.

The target audience are the first-time car buyers, families looking for a reliable vehicle, small businesses needing fleet vehicles and customers looking for vehicle servicing and genuine spare parts.

2. Website Goals and Objectives:

❖ Define specific goals for the website (e.g., increase website traffic, generate leads, sell products, or provide valuable information).

- Improve the company's online presence and attract more visitors through search engine optimisation and digital marketing.
- Encourage potential customers to enquire about vehicles, request quotations and book test drives using online enquiry forms.
- Promote and sell new and preowned vehicles, genuine spare parts and automotive accessories through the website.
- Offer details information about available vehicle, pricing, financing options, servicing, maintenance, company services and contact details to help customers make informed decisions.

❖ Determine and present key performance indicators (KPIs) to measure success.

Website visitors per month	5000
Vehicle enquiries monthly	100
Online vehicle sale every month	30
Online service booking monthly	50
Customer satisfaction rating	90%

3. Current Website Analysis (if applicable):

- Analyse strengths and weaknesses of the existing website.

The strength

- This organisation is that it clear target market by focusing on vehicles buyers, car enthusiasts and customers requiring automotive services.
- Wide range of services is the business can promote the vehicle sales, servicing, spare parts and accessories.
- Opportunity for online growth: since there is a currently no website there is a significant potential to establish a strong digital presence.

The weaknesses

- Customers cannot easily browse available vehicle online.
 - Vehicle prices and specifications are not available in one central location
 - Customers cannot conveniently make service.
- Identify areas for improvement based on the weaknesses identified.
 - The online vehicle catalogue: the customers will be able to view available vehicle, prices, specifications and photographs.
 - Online enquiry forms: the potential customers will be able to submit the enquiries about vehicle and services.
 - Test drive booking: Customers will be able to request and schedule test drives online.
 - Service booking system: Customer will be able to book vehicle maintenance and servicing

4. Proposed Website Features and Functionality:

- Outline essential features (e.g., homepage, about us, contact page, products/services page) and the desired functionality.
 -

5. Design and User Experience:

- Discuss the overall design aesthetic and branding, highlighting the following:
 - Zenvora Automotive website will have a modern, professional and sporty automation design that reflect the organisation brand and the design will focus on making it easy for customers to find vehicle, view services and contact the organisation.
- Colour Scheme: white, red, black.
- Typography: the heading Poppins Bold
Subheadings: Poppins semi bold
Body text: Aptos

- Layout and Design:
 - This website will use a clean and structured layout. it will consist of the navigation bar that will remain consistent across the website so that users can easily move between the pages.
 - Zenvora automation logo
 - Navigation menu
 - Video
 - Customers reviews
 - Contact section.
- User experience considerations (e.g., navigation, layout, colour scheme).

The website will be designed with the user in mind it will include

 - Simple and clear navigation
 - Mobile responsive and design
 - Clearly visible buttons
 - Easy to read the text
 - High-quality images
 - fast and straight forward access to the contact information.
- Develop low-fidelity wireframes to visualise the website's layout and information hierarchy.
 - Home
 - About Us
 - services
 - Showroom
 - Contact Us
